

# VACS® II Perkutane Transluminale Valvuloplastie-Katheter

## Percutaneous Transluminal Valvuloplasty Catheter

### Artikelbeschreibung

Der **VACS® II** PTV-Katheter ist ein over-the-wire non-compliant Dilatationskatheter mit koaxialen Aufbau.  
 Der Valvuloplastie-Katheter zeichnet sich durch eine sehr gute Handhabung aufgrund eines geringen Profiles aus, wodurch das kleinstmögliche Einführbesteck benutzt werden kann.  
 Die nominale Größe des distal montierten Ballons wird über die gesamte Ballonlänge beibehalten.

Universell einsetzbar: ..... *Kinder / Erwachsene*  
 Ballonmaterial: ..... *Copolymer*  
 Schaftmaterial: ..... *Copolymer*  
 Markierungsringe: ..... *Gold*  
 Distale Spitze: ..... *konisch, atraumatisch*

### Product Description

The **VACS® II** PTV catheter is an over-the-wire non-compliant dilatation catheter with coaxial construction.  
 The Valvuloplasty catheter impresses with maximum steering and trackability and requires the smallest introducer possible due to the low profile.  
 Nominal sizes of the distal mounted balloon are maintained over the entire length of the balloon.

All-purpose: ..... *Pediatric / Adult*  
 Balloon material: ..... *Copolymer*  
 Shaft material: ..... *Copolymer*  
 Radiopaque marker: ..... *gold*  
 Distal tip: ..... *tapered, atraumatic*
